More than 80 scientific articles written, edited, or proofread and a PhD thesis endorse my writing skills. Besides, I have an American Medical Writers Association certificate and a European Medical Writers Association certificate in medical writing, and some online courses on clinical trials, observational studies, and biostatistics, all of which bear witness to my developing capacities in the field.

PROFESSIONAL EXPERIENCE

Freelance Medical Writer at BCN Medical Writing (June 2018 – to date)

- ◆ Edited and proofread 50+ scientific articles in diverse areas (oncology, pulmonology, biochemistry, proctology, pharmacotherapy, neurology, cardiology, sports medicine, etc.).
